Test of substitution saturation (Xia et al. 2003; Xia and Lemey 2009)

Testing whether the observed Iss is significantly
lower than Iss.c.

Part I. For a symmetrical tree.

unlikely) tree.

Interpretation of results:
          Significant Difference

          Yes   No

Iss < Iss.c   Little   Substantial
               saturation   saturation

Iss > Iss.c   Useless   Very poor
